Artists in Healthcare, a Manitoba non-profit organization, provides an exciting opportunity for people to donate artworks for healthcare facilities in exchange for a charitable tax receipt.

The artwork must be behind glass, framed and suitable for a health facility. Donors must provide an independent appraisal of the work(s) to be donated. Donors may also direct the artwork to a participating healthcare organization.

Artists in Healthcare and the healthcare facilities reserve the final determination of the appropriateness of the artwork, its evaluation and the receiving healthcare facility.

Art Donation Program for Healthcare Facilities
